THOS. F. BINKERT, Sec'y to Commission,

Albuquerque, New Mexico

October 5, met at the storeroom of the Playas Mercantile company Wednesday and arranged a full program for entertainment, including speaking by the governor, W. C. McDonald and others, music by the military band, dinner and supper and a dance at night. The committee also arranged for a surprise for the outside visitors in the nature of a display of some of the products of the valley.

Sunday school met for the first time after organization Sunday afternoon and the attendance showed 75 per cent of the people in reach were in attendance, and there is every assurance that the average attendance in the future will be larger than that showing. The motto of the school, as planned by Mr. McWhorter, the superintendent, is "Service First," and this being the motto, the school commends itself to every man and woman in the community. One of the attendants came a distance of six miles, and expressed the determination of attending if she had to walk.

E. E. Bralcy of Chicago, Ill., E. B. Egbers of Pinos Altos, Jack Long of Myndus and H. N. Stephens of Silver City were visitors at the chamber of commerce Monday.

Presbyterian Rally Day

Rally day will be observed at the Presbyterian Sunday school next Sunday, September 27. Every child or adult who has no Sunday school home is cordially invited to unite.

Baptist Church

Next Sunday evening, September 27, Dr. E. B. Atwood of Albuquerque state secretary of missions, will preach at the Baptist church. Mrs. Joe Dean will render a solo. Usual services for the day and week.

Last Game in Copper League

The tie for the Chino cup will be played off by the Hurley and Santa Rita teams of the Copper league in Silver City on Sunday, September 2, which will enable Deming fans to go up on the regular morning train and return on the afternoon train. This will be the last game of the Copper league season and should be a good, tight game between the two fastest teams in the league—Santa Rita having nosed out Hurley for the pennant by one game and the two teams are tied with three games each for the cup. It is expected that a large number of Deming fans will attend the game.

Station Agent Goes Insane

Station Agent David L. Alexander for the Santa Fe railroad at Fierro was taken violently insane last week while at work and was taken to Silver City for examination and treatment. A. K. Alexander, a brother of the unfortunate man arrived this week from Paragould, Ark., and took his brother home. The cause of the agent's insanity is not known and it is thought that a lower altitude will benefit him.

CLYDE EARL ELY

Mr. and Mrs. Young Bounds of Separ, made a flying trip to Deming Monday. Mrs. J. T. Warren accompanied them on their return trip Tuesday.

STATE NEWS NOTES

Yon McDonald and associates, in the Oquirrhos San Andres mountain district of Lincoln county, shipped 1400 head of cattle from Tularosa last week, most of the stock going to California.

The Artee cornet band has reorganized with William Poole as leader.

New stock pens have been completed by the Santa Fe at Taibien. The first shipment from them was made last week. T. B. Bates loaded two cars of fat stock for Kansas City.

The annual Quay county fair was held this week at Tucuman.

Montia valley pear growers have just received \$1244.75, as the return from their first association shipment of two cars.

J. E. Brown shipped two cars of stock to Kansas City last week from Fort Sumner, including one grass cow which weighed 1145 pounds.

Machinery for a canning plant has been ordered by Fort Sumner people to finish the present season's production of tomatoes and sweet potatoes. A general canning business will be done next season.

The Roosevelt county fair will be held at Pecos October 1 and 2.

Fort Wingate—The movement of the Mexicans interned here to Eagle Pass, Texas, was begun Tuesday. Two trains left in the morning. Between forty and fifty of the internees will remain in the United States, immigration inspectors having declared them eligible. Four officers, Generals Jose Ynez Nolasco, Castillo, San Martin and Quirado, are to be taken to Fort Bliss, Texas. Since the Mexicans were interned here, their number has increased 347—all children born here.

Sunday's Los Angeles Examiner has the following of interest in New Mexico:

St. Vibiana's cathedral was the scene of a beautiful wedding last Wednesday, when Miss Josephine Armijo of Las Cruces, became the bride of Peter Gallagher of El Paso, Texas. Mr. Harnett conducted the service, and following the marriage, a wedding breakfast was served at Hotel Alexandria.

Santa Fe—State Engineer James A. French has been notified by the Santa Fe railroad that it will put in a new crossing on the Becker cutoff, between Albuquerque and Socorro. This will eliminate the present dangerous crossing at the bridge across the Rio Grande at Escudido.

Tucuman—An unknown man was knocked from a train near here and killed. Nothing was found on his body to identify him. He attempted to swing aboard of a moving Southwestern train when his grip weakened and he fell under the wheels. He was buried in the Tucuman cemetery.

Carlsbad—The report of the grand jury made late last week brings to light some sensational charges against the county commissioners, alleging among other things irregularities in assessment matters and that two commissioners are maintaining private telephones at county expense and that large expense bills were also allowed themselves. It also brings up an alleged printing scandal.

Carlsbad—Editor W. H. McKane of the Carlsbad Current, has been indicted on a charge of libel brought by Gayle Talbot of Artes, a former newspaper man.

Mr. McKane quickly gave bond. He took his indictment good naturedly and did not seem to be worried over the outcome of his case. The date of the hearing has not been announced.

Santa Fe—C. Bell, motion picture operator for the San Diego exposition commission, wired to the office here Tuesday that he had secured a series of remarkable pictures at the Navajo Indian fair at Shiprock, now under way. Among these he says is a film showing 1,000 Navajo bucks in the famous tribal fire dance.

Albuquerque—Five deacons of the New Mexico Methodist church have been ordained here. They are: Clyde Keagan of Albuquerque; C. H. Bodington of Columbus; M. A. Lourens of El Paso; William E. Allmand of Des Moines; and R. S. Dunn of Clayton. The Rev. C. O. Berkman of the Lead avenue Methodist church, Albuquerque, was returned to that church for the next year.

Santa Fe—The contract for carrying the mail from Silver City to the mining camp of Tyrone, Grant county, has been awarded to Byrne & Rainville for \$800 a year for four years. They will carry the mail on the Tuesdays, Thursdays and Saturdays when the trains on the Burro Mountain railway do not run.

Laguna—The celebration of the annual 800th anniversary of the pueblo of Laguna Saturday proved one of the most impressive ever held. All of the Indians of the various Laguna villages were in attendance as well as many from Taos and a number of Navajos from nearby villages. The main features of the celebration were the high mass and the procession in the morning and the customary corn dance and the Comanche dance in the afternoon. What seemed to prove the greatest attraction, however, was the ball game between Indians from Laguna and those from Seama, one of the Laguna villages. This was an exciting and close contest, resulting in a victory for Seama by a score of 5 to 3.

Silver City—The grand jury returned fifty-two true bills and twenty-two no bills, giving some idea of the lawlessness throughout the county the past few months. Charles Heaton was found guilty of running a roulette wheel. Victor Mendosa of robbing the Coney Corner saloon; T. M. Bates of assault with a deadly weapon; Refrino Carasco of assault and battery, while Henry Ahl pleaded guilty to larceny from a house. Lee Huddup, charged with defacing brand and larceny of cattle, forfeited his \$2,500 bond. Claude Huddup and S. B. Tullens being the bondsmen. David L. Alexander, station agent of the Santa Fe at Fierro was suddenly taken violently insane and Judge Hobbs appointed a commission to pass upon his case.

Rowell—That Sidney W. Cooper, drainage engineer, who has been stationed at Rowell for several years past, ought to be retained here if it is possible for Rowell to compare that spot is the local sentiment. A recent announcement had it that Mr. Cooper was to be transferred to some other point and would be succeeded here by D. E. Holter of Salt Lake City, who has been assisting him here in some experimental and survey work.

GENERAL NEWS NOTES

Ray, Ark.—One man, Wayne Dangler, lost his life here Tuesday in a landslide which swept through the main street of this town, washing away houses and cutting off the main water supply pipe line. A water famine is imminent, as half of a mile of the city water main and two bridges are destroyed, and tank cars cannot be brought in from the outside. A store and seven residences were washed down. Mine's creek into the city river and the houses of the Harwood Mining company were demolished. Blast from sixty-ton ore cars were hurled into the creek.

Surrounding ranches also suffered severely. The loss is estimated at \$60,000.

Sitka, Alaska—The United States cruiser Buffalo picked up an "BOR" call Monday from the United States revenue cutter Tahoma, which is fast on a reef and in serious danger, ninety miles west of Sitka island of the Alaskan chain. The Tahoma has nine officers and sixty-three men aboard. The distress call from the Tahoma was heard by the Japanese liner Tacoma Maru and the steamer Senator and both started to her aid. They should reach her soon, as the Japanese vessel left Seattle September 15, bound for Hong Kong, and passes near Sitka island, and the Senator, bound for Nome, left Seattle September 12.

Washington—President Wilson returned Tuesday from his trip to Princeton, N. J., to vote in the democratic primaries there. He remained inside his private car throughout the return journey.

The president Wednesday received a delegation of Colorado coal operators who will tell him their opinion of the relative basis for the settlement of the strike already accepted by the miners.

J. F. Welbourn, president of the Colorado Fuel and Iron company, who heads the delegation, arrived here Tuesday night. The operators were reported to be ready to accept the main provisions of the plan.

Los Angeles—A twenty round bout for the featherweight championship between the holder, Johnny Kilbane, and Alvin Attil, set for October 15, has been postponed because of an accident. Kilbane, while horseback riding Tuesday injured his left thumb.

The new date will be set when Attil arrives from New York. It will probably be about November 1.

Kansas City—Jack Dillon of Indianapolis will meet Jim Flynn, the Pueblo fireman, here October 5, it was announced here Tuesday night. Dillon was substituted for Carl Morris, who cancelled his match because of an injured arm.

London—Charles Henry Weston, formerly of Salem, Mass., is in jail at Richmond, a suburb of London, as the result of the death of his wife, who was found Tuesday in her house with her throat cut and who died after being taken to a hospital.

Mrs. Weston, it is alleged by the police, stated before her death that the wound had been inflicted by her husband.

Baxter Springs, Kan.—Three men robbed the Baxter Springs National bank here last Tuesday, obtaining \$8,000 and escaped.

The bandits entered the building, drew revolvers and forced Frank L. Brewster, assistant cashier, and H. M. Mitchener and William Murphy, customers, into the bank vault, which they closed and locked.

The bandits were not masked, but ordered Brewster and the two customers not to look at them.

El Paso—That General Villa is preparing for prolonged fighting in Sonora is indicated by the shipment for Nogales of eight carloads of ammunition and war munitions.

Two carloads of the shipment have been in El Paso for some time, having been held up by the late embargo and only released a few days ago under orders from the treasury department. Included in this lot are several thousand rifles and three machine guns, as well as a large quantity of ammunition.

The remaining six cars arrived in El Paso Monday from Galveston, consigned to General Villa's agents here. Included in this shipment are some three million rounds of rifle ammunition as well as other munitions.

San Francisco—The investigation Tuesday of the robbery of the Southern Pacific train No. 75 at Burbank places the loot obtained by the bandits from their thirty-three victims at \$600 and of this \$200 is in cash and the remainder in watches and jewelry.

Perhaps one of the most ironical incidents of the many related by the passengers reaching San Francisco, was the fact that M. Hellman, a Los Angeles banker and probably the wealthiest man aboard the train, escaped with out the loss of either cash or jewelry. The Los Angeles banker outwitted his own train. He saved his own wallet containing several hundred dollars by dropping it beneath a chair.

Ottawa, Ont.—It is understood that by January Canada will have abroad either on the fighting line or in England upward of 40,000 men. The 31,000 to be sent from Valcartier probably will go to a depot on England, from which they will be sent to the front when thoroughly efficient. Recruits to fill up gaps in the ranks caused by casualties and sickness will be sent from Canada to this depot from time to time, probably bringing the total to about 41,000 by January 1.

Columbus, O.—What was said to be a new world's record for 3 year old pacers was being set at the Horn Review Futurity, purse \$3,000 at the grand circuit meet Tuesday afternoon. Best time 2:01 1-2.

Anna Bradford broke her world record of 2:30 1-2, also the world's record for the fastest two beats as a pacer of her age, according to announcement at the track.

Asheville, N. C.—Mrs. Henry M. Flieger Tuesday recovered the \$50,000 pearl and diamond pendant for which the police have been searching. The officers refused to say where it was found and no arrests were made.

Lincoln, Neb.—Speaking before a large crowd representing all political affiliations, Col. Theodore Roosevelt decreed Tuesday night that his mission to Nebraska was to urge upon the voters of the state support of Progressive candidates and principles. He is endorsed by name H. R. Sackett, Progressive nominee for governor—an incident which was availed with considerable interest because of the colonial's personal relationship with H. R. Sackett, the Republican candidate.

Turning to H. R. Sackett, who was on the platform, Mr. Roosevelt mentioned him by name and called upon all Progressives and others embracing the principles of the party to vote for him and for the entire ticket.

PLAYAS NEWS
J. J. Jones, wife, son and daughter spent Sunday and Monday at Playas. Mr. Jones is the senior partner in the Playas Mercantile company.

Dan Esell of Douglas, Ariz., and A. J. Prather of Rodeo, spent Sunday in Playas, on their way to El Paso, Tex., where the former will take a position in a grocery store, and the latter will enter school.

Tuesday morning, Judge J. M.

Tripp and Thomas H. Jones, of the Playas Mercantile company, went to Deming to interest the people of that city in the El Paso-to-Phoenix Borderland route through Deming and Playas.

The Playas school opened last Monday with Miss Ruth Johnson as teacher. Twelve pupils were enrolled the first day and there are to be some five more in attendance, which will be a decided increase over last year's enrollment.

The committee on entertainment for the barbecue to be held at Playas
